Tax Credit Maze

Welcome to the Health Freedom Minute. This is Twila Brase president of Citizens’ Council on Health Care.

Have you seen the colorful chart on our home page? It’s called Navigating the Small Business Tax Credit.

Sounds dry and uninteresting, but it’s not. The tax credit is what Mr. Obama claims will prevent you from losing your current health insurance.

Take one look at the chart, however, and you’ll see how far from the truth that might be.

Once employers figure out they have to run through this maze of formula-based calculations, they may decide it’s better -- and cheaper -- to pay the fine for not insuring you.

You’ll be forced into the federally-mandated and controlled State health insurance exchange where you must buy one of only four acceptable health insurance options: bronze, silver, gold or platinum coverage.

Say “adios” to the health insurance you like.

Find the chart at www.healthfreedomminute.net.
