Welcome to the Health Freedom Minute. This is Twila Brase president of Citizens’ Council on Health Care.

What is “Health care quality?” ObamaCare will penalize doctors who do not meet federal “quality” measures, so listen up and learn WHY your doctor may soon become more intrusive and coercive.

Quality is defined by government, not patients. If doctors follow government rules, treat patients with government-issued directives and make sure patient outcomes data look good on paper, even if patients suffer, they will be called a quality doctor.

If doctors fail to comply, treat you like a unique individual or refuse to disclose your medical records, your doctor will be considered “low quality” and his or her pay could be docked.

ObamaCare forces doctors to work for government, not patients. How’s that for health care quality?
