Tell Feds to Give You All the Data

Welcome to the Health Freedom Minute. This is Twila Brase, president of Citizens’ Council for Health Freedom.

The federal government plans to require hospitals, doctors and others to give you an accounting of the disclosures of your medical records. But not all disclosures.

They will only require an accounting of the disclosures they think you’re interested in. You will also not learn of any disclosures permitted under state law even though you don’t know about them. When you request an accounting of disclosures, you’ll think you’re getting the whole truth but you’ll be wrong.

Public comments are being taken on this proposed rule until Monday, August 1. Tell the federal government you want a complete and comprehensive accounting of ALL disclosures of your records, not just the ones they want to tell you about.
