The Physician Tracking ID Number

Welcome to the Health Freedom Minute. This is Twila Brase president of Citizens’ Council on Health Care.

ObamaCare is moving from the incomprehensible to the unbelievable.

The U.S. Department of Health and Human Services has issued a new regulation for doctors that will make it even harder for small physician practices to stay in business.

By July 1st, all physicians must register a national provider ID number not only with the Medicare administration, but with state government. That government tracking number must be on every order and every claim or they will not get paid.

Government says this new ObamaCare requirement will prevent fraud, waste and abuse, as defined by the government, not you or the doctor.

Doctors who opt out of Medicare are exempt. If you want to get the care you need, start paying cash now and encouraging your doctor to “get out of Dodge.”
