June 25, 2010

Oppose HHS Baby DNA Banking

Welcome to the Health Freedom Minute. This is Twila Brase president of Citizens’ Council on Health Care.

I have an urgent action alert for you. The deadline is today so act quickly.

The federal government is recommending government collection and warehousing of newborn DNA without parent consent. They also recommend government use of baby DNA for research without parent consent. If government is allowed to own and control baby DNA, it will soon own the genetic code and profile of every citizen. In the era of ObamaCare rationing, think eugenics.

Please write at least one sentence of opposition to the government. The deadline is today, Friday. Their email address is on our home page. Act now to protect the constitutional, privacy and DNA property rights of citizens.

Go to www.healthfreedomminute.net.

That’s healthfreedomminute.net.
