If Obamacare’s So Great, Why Waivers?

Welcome to the Health Freedom Minute. This is Twila Brase, president of Citizens’ Council for Health Freedom.

If Obamacare is so wonderful, why is the Obama Administration giving waivers to allow some to avoid complying with it?

3.2 million individuals in waivered health plans have been protected from higher costs. And a new regulation allows waivers from the Obamacare prohibition on new physician-owned hospitals.

AARP’s insurance business got a waiver from many Obamacare mandates, and nursing homes are working to get an exemption from the employer mandate.

Twelve states have applied for waivers to keep health insurers from leaving. And health insurance agents are trying to get their commissions exempted from a cost calculation so they can keep their jobs.

Obamacare is creating winners and losers now, but if it is not repealed, we will soon all be losers.
