Send Your HIPAA Hassle Stories

Welcome to the Health Freedom Minute. This is Twila Brase, president of Citizens' Council for Health Freedom.

This week I’m asking for your stories to share with legislators. Today I’m talking about HIPAA. You may not know it, but the so-called HIPAA privacy form at your clinic does not protect your privacy. By signing it you simply acknowledge that you know you have no privacy.

We encourage you to NOT sign the HIPAA privacy form. The law does not require you to sign, it only requires clinics to make a good faith effort to get you to sign. Furthermore, your signature may be used against you if you complain when private data is shared.

A woman recently took our advice and tried to NOT sign the form. The clinic refused to see her unless she signed it, so she signed it against her will and told us about it.

Do you have a story about refusing to sign the HIPAA form? Send it to me as feedback at www.healthfreedomminute.net.
