250,000 New ObamaCare Regulations

Welcome to the Health Freedom Minute. This is Twila Brase president of Citizens’ Council on Health Care.

Yesterday, I told you about the Minnesota Health Care Reform Task Force. For the next two days, I’ll share comments from the members.

Commissioner Cal Ludeman, chairman of the one-day task force, said the National Governor’s Association predicts 250,000 pages of new ObamaCare regulations.

Stephen Parente, an economist, said ObamaCare’s health insurance exchange is the biggest threat to state sovereignty, but Peter Nelson from the Center of the American Experiment said the exchange is important.

In case you don’t know, Citizens’ Council on Health Care opposed Governor Pawlenty’s attempt to create an Exchange in 2007 and 2008. We called it a single-seller bureaucracy, gathered petitions and heralded its defeat.

Listen for more task force comments tomorrow…
