Minnesota Pay for Performance Program

Welcome to the Health Freedom Minute. This is Twila Brase president of Citizens’ Council on Health Care.

On July 1st, your doctor quit working for you. Your doctor now works for the government. By law, all doctors must report treatment and medical decisions to the government. State health officials, government bureaucrats, set one-size-fits-all treatment protocols and doctors who comply will be rewarded. Doctors who customize your care will be penalized.

The government says they’re simply collecting data on health care quality, but they are actually forcing doctors to follow government orders or be penalized. This pay-for-performance or better stated pay-for compliance law was passed in 2008 and heralded from the governor’s office in the last days of the session as a bipartisan agreement on health care reform.

Tell Governor Pawlenty what you think of this government takeover.
