States Say No to Obamacare Lobster Trap

Welcome to the Health Freedom Minute. This is Twila Brase, president of Citizens' Council for Health Freedom.

Obamacare requires States to establish an American Health Benefits Exchange. In short this Exchange is a federal command and control center. It also lets health plans build a cartel. Finally, the Obamacare Exchange is a lobster trap. Once you get in, you’ll never get out. Its subsidies will expand entitlement and dependency into the middle class, force people to keep lower-paying jobs, and move toward a single-payer system.

New Hampshire and Kansas just sent back the federal dollars meant to create the lobster trap. Florida has no intention of putting any piece of Obamacare in place including the Exchange. Meanwhile Minnesota’s Governor plans to build the Exchange even if the legislature said no. Fourteen corporations have responded to the Governor’s request for proposals.
