**States Take or Refuse Bait on Obamacare Lobster Trap**

Welcome to the Health Freedom Minute. This is Twila Brase, president of Citizens’ Council for Health Freedom.

Republicans look at implementing Obamacare’s lobster trap - the health insurance exchange – in two ways. Those who have taken the federal bait and climbed into the trap are like Ohio Governor John Kasich whose spokesman said, “We cannot let the insurance exchange default to federal control.”

But those who see the lobster trap refuse the bait. That would be Florida Governor Rick Scott who told The New York Times, “I don’t want to waste either federal money or state money on something that’s unconstitutional.”

Michael Cannon at the Cato Institute writes about how a British POW in “The Bridge over the River Kwai” realizes that collaboration with his captors is madness and gives his life to undo it. State legislators need the same epiphany and soon.
