Let's Not Fight

Welcome to the Health Freedom Minute. This is Twila Brase president of Citizens' Council on Health Care.

Who deserves to get ObamaCare dollars? The young or the old? I hear a battle brewing that should not be allowed a place on the stove.

Last month the Wall Street Journal reported on ObamaCare's transfer of wealth from the old to the young. From Medicare to a major expansion of Medicaid.

Let's not fight. We must come together to preserve America. The goal should be dropping Medicare dependency and ending government entitlements.

The question is not how much will you get. The question is how soon can we find our way back to private payment, personal insurance, practical charity, and the lower prices that result when government regulators and health plan monopolies find themselves out of a job.
