Refrigerator Health Audits

Welcome to the Health Freedom Minute. This is Twila Brase president of Citizens’ Council on Health Care.

As you head to the food stands at the State Fair, I have a prime example of why we should be concerned about all the wellness and prevention dollars in ObamaCare:

As Mark Steyn said last year, “Once you have government health care, it can be used to justify almost any restraint on freedom: After all, if the state has to cure you, it surely has an interest in preventing you needing treatment in the first place.”

He said, “That’s the argument behind…the creepy teams of government nutritionists currently going door to door in Britain and conducting a ‘health audit’ of the contents of your refrigerator. They’re not yet confiscating your Twinkies; They just want to take a census of how many you have.”

Think about that as walk past the Minnesota Health Department with some goodie on a stick! Enjoy!
