

OVERVIEW: BIG BROTHER IN THE EXAM ROOM: **The Dangerous Truth About Electronic Health Records**

By Twila Brase, RN, PHN (435pp; Beaver's Pond Press, July 2018)

Dedication—p. iii; **Contents**—p. v; **Acknowledgements**—p. xvii; **Preface**—p. ix;
Acronyms—pp. 344-348; **Endnotes**—pp. 349-431; **About the Author**—p. 433;
Physician Quotes—pp. 75, 81, 87; **Charts/Graphics**—pp. 65, 70, 116, 118, 149,
158, 159, 162, 166, 169, 170, 175, 176, 211, 245, 266

Endorsed by: Dan Bongino, Hal Scherz, MD, Ed Morrissey, Naomi Lopez Bauman, Dean Clancy, Rudy A. Takala, Nancy Schulze, Howard Root, Jane Orient, MD, Richard Sobel, Norm Singleton, Edward Hasbrouck, Eric Novack, MD, Kris Held, MD, Barbara Loe Fisher, Scot Silverstein, MD, Minnesota State Senator Warren Limmer, Michael F. Cannon, Dr. Linda Solie, Bob McEwen, David Kupelian, Greg Scandlen (**Forward**, p. vii).

Section I - The History of the EHR Mandate

Chapter 1: Introduction (p. 3) with Key Definitions (p. 13)

Chapter 2: How the EHR Mandate Became Law (p. 18): More Than a Medical Record, It Began With HIPAA, President Bush Lays the Groundwork, Congress Mandates EHRs, No Public Debate.

Chapter 3: Winners and Losers (p. 31): HITECH Requirements, From Mayhem to a Mess, Extracting Patient Data, “Measure Madness,” Data Industry Profits Skyrocket.

Section II - Congress Seizes Control of the Exam Room

Chapter 1: Meaningful Use Mandated (p. 42): Payments and Penalties, The Meaningful Use Law, Government Data Mining, MU Terrifies Physicians, The “Game Changer,” Meaningful Use Stages 1 to 3, MU Stage 1, Requirements for Physicians, MU Stage 2, Requirements Expanded, MU Stage 3, Assuring Infractions and Penalties, Is Meaningful Use Disappearing?

Chapter 2, Every Prescription Tracked (p. 56): The E-Prescribing Mandate, Hidden Cost of EHR e-Prescribing Mandate, Truth About e-Prescribing Errors.

Chapter 3: “Doc Fix” Makes It Worse (p. 62): Passage of MACRA, Meaningful Use Gets a New Name, Physicians Sound Off, More Controls—Larger Penalties, Trump Administration Reduces MACRA Regulations.

Section III - Clinical Chaos

Chapter 1: Frustrated Physicians and Nurses (p. 74): Doctors are Dissatisfied, Clunky, Costly, Frustrating, and Dangerous, EHRs Hide Critical Patient Information, Useless Data Impedes Care, From Doctor to Data Clerk, EHR Developer Learns a Lesson, The End of the Medical Profession?, EHR Increases Physician Burnout, Nurses No Happier than Physicians.

Chapter 2: EHRs Interfere in Patient Care (p. 91): Obstructions and Obstacles, Health Care’s “Potemkin Village,” Dumbing Down Doctors, Automated Care by EHR, Disrupting the Patient-Doctor Relationship, Intrusion of the Scribes, Hospitals Limit Treatment Options, Treating to the Test, Losing the Human Touch, Data Mining to Dictate Decisions, MD or Artificial Intelligence?, Pay for Compliance.

Chapter 3: Death, Injury, and Hazardous Conditions (p. 115): Danger Was Known but Ignored, Flack-Box Treatment Algorithms, Computerized Ordering Can Be Deadly, Child Deaths Doubled, Dangerous Health IT Errors, EHR Hazards at the VA, Built Without Patients in Mind, Code of Silence.

Chapter 4: Disasters and Dangerous Intrusions (p. 137): System Shutdowns, Access Denied, Hacking of Health Data Escalates.

Section IV - HIPAA Doesn't Protect Privacy

Chapter 1: The HIPAA Disclosure Rule (p. 146): No Privacy; No Consent, Millions Get Unconsented Access (list of 12 "National Priority Purposes" for sharing without patient consent, p. 150), Secret Disclosures, Read the Definitions (complete definition of "Health Care Operations" p. 153), "Limited Data Set" Loophole, Data Sharing on Auto Pilot, Clearinghouses Want to Share Data, "Refuse to Sign HIPAA" Campaign.

Chapter 2: National Medical-Records System (p. 164): Every Medical Record Available Online, Public Opposes National Data System, eHealth Exchange, eHealth Exchange—How It Works, State Health Information Exchanges, Consent Options for HIE, Costly Connections, Payers Want a Single Network, Government Lay on Data Security.

Chapter 3: National Patient ID (p. 179): Unique Patient Identifier, Patient Biometrics and Augmented Identification, Privacy Threat of REAL ID.

Chapter 4: Big Data and Big Business (p. 187): Selling Patient Data, Monetizing Data, Wearable Surveillance is Big Business, Tracking America's Children.

Chapter 5: Privacy Rights, Consent, and Coercion (p. 193): Americans Support Consent Requirements, The First Violation, Fourth Amendment or Third-Party Doctrine?, Coercive Consent Forms.

Section V - Government Intrusion

Chapter 1: Research at the Bedside (p. 204): Controversial ACA Research Institute, Millions in Federal Research Database, Research to Restrict Care?, Who Funds PCORI?, Learning Health System, Federal "Common Rule" for Research, Research on "Baby DNA" Without Consent, Hands Off My EHR.

Chapter 2: Affordable Care Act Experiments (p. 219): "ACA Innovation Center," Hospitals Forced to Experiment on Patients, ACOs: Seniors Secretly Enrolled.

Chapter 3: The Population Health Agenda (p. 230): Shifting the Focus, Everything About You in the EHR, "Slice and Dice" Analytics, Digging into DNA, One State's Push to Population Health.

Chapter 4: Tracking Americans in Sickness and Health (p. 240): Real-Time Surveillance, ICD-10 Tracking Codes, Patients Scored for Risk, Medicare Annual Wellness Visit, Medicare "Star Ratings," The All-Payer Claims Database, The Physician Compare Database, State Surveillance Systems, Prescription Drug Monitoring Programs.

Section VI - The Cost of Coercion

Chapter 1: Prices and Penalties (p. 262): False Claims of Cost Savings, Forced into EHRs, Upfront and Hidden Costs, Mandate Hits Smaller Hospitals Hard, Federal Grants Don't Cover EHR Costs, Vendors Hold Data Ransom, Federal Failures Cost Billions, Federal and Rural Clinics in Survival Mode, Perpetual Threat of Penalties, Where Did the MU Money Go?, Doctors Blamed for No Savings, No Evidence of Cost-Effectiveness, More Charges, Higher Costs, Shortage of EHR System Experts, EHR Vendors Sitting Pretty, Cutting Costs in the Cloud?

Section VII - Future Considerations

Chapter 1: A Few More Things to Know (p. 286): The End of Clicking?, MyHealthEData & Blue Button 2.0, The Dark Side of "Interoperability," Who's Blocking Whom?, Comprehensive Dossiers on Americans?, Facebook Wants Your Medical Records, Mobile Web-Based EHRs, Real-Time API Access, Remote Patient Monitoring, Licensure Requirement?, Is There a Doctor in the House?, Will Blockchain Protect Privacy, Ownership versus "Stewardship".

Chapter 2: What EHRs Could Have Been (p. 313)

Chapter 3: Steps Back to Privacy, Safety, and Freedom (p. 316): Steps for Congress (p. 317), Steps for State Legislators (p. 321), Steps for Physicians/ Clinicians (p. 324), Steps for Citizens/Patients (p. 326)

Conclusion (p. 331); **Afterword** (p. 333)

How Patients Lost Control to Third-Party Payers (p. 337)

Timeline: How Congress Advanced Third-Party Control (p. 339)
