Will You Trust mRNA Shots to Stop Cancer?

Pfizer's Covid shots hurt people and then the company attempted to keep their research results hidden for 75 years. Now Pfizer has aired a Superbowl ad focused on knocking out childhood cancer?

The reported cost for Superbowl ads was \$8 million for 30-seconds. What did Pfizer's two-minute ad cost? Clearly, Pfizer wants you to trust them with cancer vaccines. Bio-N-Tech, Pfizer's Covid shot partner, is now working on mRNA vaccines for cancer. Will Pfizer be involved in vaccinating the young against cancer? Since the mRNA Covid shots began in 2021, more young people are getting unusual cancers. Who will trust mRNA shots to stop cancer?

“An update on mRNA cancer vaccines,” Professor Justin Stebbing, The Royal College of Pathologists, July 15, 2024:
