

REAL ID – 5 FACTS

REAL ID is a Federal ID card for a national surveillance system.

1. By law, required uses for the REAL ID can expand beyond flying (e.g. medical care, gun purchases, college, bank accounts, car rental).
2. DMVs plan to digitize the REAL ID, put it on your phone, and have remote access to it (AAMVA testimony to Congress, 12/5/2023).
3. Government has claimed a right to collect and catalog the coordinates of your body (biometrics) for its own control, starting with your facial geometry.
4. REAL ID paves the way to establish a biometric-controlled, digitized 'social credit system' in the U.S.
5. Unlike passports or global entry, REAL ID would likely become a domestic passport for all transactions, access, and movement in the U.S.

Americans have the power to stop REAL ID.
