Are You a Widget or a Wedge Patient?

Are you a Widget patient or a Wedge patient? Let me explain. As I often say, the mission of medicine has been taken over by the business of health care. As a result, when you are in the exam room, or at the hospital, you may feel more like a widget on a conveyor belt than a patient in the hands of caring professionals.

The Wedge of Health Freedom is an online free directory of cash-based independent doctors and practices that serve only you, the patient. If you are a Wedge patient, you'll likely find a doctor who will listen to you, get to know you, touch you with the healing hand of compassion, and often provide more time and more care for a lower price. Go to JointheWedge.com. JointheWedge.com.
