Why Did the DOJ Not Indict Fauci?

Dr. Fauci lied to Congress. Dr. Fauci lied to us. Dr. Fauci's lies on Covid, masks, social distancing, and the Covid shot led to loss of life, permanent disability, hospital shutdowns, Long Covid, shuttered businesses, patients dying alone, abandonment of the elderly, and Americans forced to secretly find and share ivermectin to save their lives.

Americans wanted Fauci brought to justice. The Department of Justice refused. The statute of limitations to indict him ended on May 11. Why didn't the DOJ act? Cheryl K. Chumley writes in *The Washington Times* that "Fauci was the smiling face of dictatorial governance during COVID." She says accountability "will have to wait until the afterlife."

"Dr. Anthony Fauci will never face consequences (in this lifetime),"
