There's Only One Solution for Unaffordable Obamacare

About 21% of Obamacare enrollees were dropped this year when they couldn't pay their first premium payment.

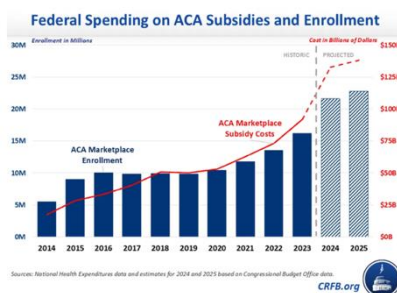

The Trump administration says the drop is from rooting out fraud. Others say it's because Republicans ended Covid-era expansion of ACA subsidies. And thank goodness they did. Otherwise, taxpayers would have paid an additional \$350 billion over the next decade. This is how the Left plans to arrive at single-payer, one subsidy expansion after the next.

The Republicans said no. Obamacare premiums are paid mostly by you, the taxpayer. Obamacare is the cause of unaffordable insurance. Congress must bring back affordable medical indemnity insurance for all.
