Say NO to Medicare-for-All Pipedream

The Left is counting on public anger over health care to win elections. They are pushing the mothership of socialism: socialized medicine. Their goal is single-payer Medicare for All.

Are they clueless about the danger or is this just a campaign strategy? Medicare is expected to be bankrupt in seven years. But the Left plans to raise our taxes and make it available to everyone.

Beyond the danger of letting government control whether you live or die, here is a shocking fact. Medicare enrollees today pay only 14% of the program's costs. If 330 million people paid only 14% of the costs of care, there would be little care and long waits, just like Canada. Say no to Medicare for All.
