Make the Safe Medicare Choice

During the next two months you can switch between Medicare Advantage and Original Medicare. Let me encourage you to make the choice that gives you the most safety and choices when you are injured or sick.

Original Medicare is more expensive than Medicare Advantage -- until you get sick.

When delays and denials begin or you're forced to appeal (if you're well enough to do it), or forced to go out of network to get the care you need, or to pay cash to stay in the rehab center until you're well enough to leave, you may wish you'd chosen Original Medicare and a go-anywhere-for-care Medigap supplemental plan. Make the safe choice while you can. Medigap plans may refuse to cover you if you have a medical condition. So choose carefully.
