Texas EO Enforces Vaccine Passport Prohibition

Last month the Texas Comptroller announced an executive order that bars any business from getting a contract or grant from the Comptroller if they demand any proof of COVID-19 shots or recovery from the illness.

This executive order, according to NVIC, the National Vaccine Information Center, builds on a 2021 state law which prohibits vaccine passports or requiring proof of Covid vaccination. The Comptroller, in his October 21, 2026 announcement of the executive order, said Texans should "not be forced to choose between their medical freedom and the ability to participate in public life." He said there will be more actions taken to restore freedoms lost.
