Real Purpose of Obamacare Was Hidden

The purpose of Obamacare was not reduced costs. Max Baucus, former chair of the Senate Finance Committee says they never focused on the cost side. Calling the bill "too big to fail," they just wanted to get it done. After it passed, he said Obamacare was an "income shift," a correction to the maldistribution of income in America.

The fix for health care is a cash-based system with affordable catastrophic coverage. Medical indemnity insurance pays **patients** the money. With the power of cash in their pockets, competitive prices appear. We call it the 3C Solution. But those profiting from exploitation of patients and doctors, and rolling in Obamacare profits, hope you never hear about it. Now you have.

"Ambassador and US Senator from Montana," and "Reflections on US-China relations and career decisions," (interview with Max Baucus), William McAllister, Obama President Oral History: https://obamaoralhistory.columbia.edu/interviews/c-1322 AND https://obamaoralhistory.columbia.edu/interviews/max-baucus
